**WHAT IS ONE TAKE AWAY YOU
WANT FROM OUR SESSION?**

GETTING TO KNOW EACH OTHER

Time to make connections and start creating a space for shared learning

WHAT'S THE STORY OF YOUR NAME?

- Name
- Organization
- # years in field

At your tables

Pick 2 to share...

- Who named you?
- How many names do you have?
- Have you changed your name in some way?
- What's the meaning of your name?
- Who/ What/When are you named after?
- What is the connection to your name and life your parents/family lived? Do you like/dislike your name? Why?
- Does it provide you with advantage or disadvantage?

What did you
notice?

Similarities?
Differences?

Principles to Guide Our Learning

- Everyone has their own life experience; this is important wisdom that we want you to bring in the room.
- There are no “right answers” or “right ways to think”, we can value everyone's perspective at the same time.
- Use history as a tool to understand what has happened and how to create solutions for the future.

Group Agreements

What do you need in order to feel comfortable participating today?

OVERVIEW OF HOME VISITING

*What does
home visiting
mean to you?*

Maternal Infant Early Childhood Home Visiting (MIECHV) Program

MIECHV early childhood home visiting programs provide **voluntary**, prevention-focused family support services in the homes of pregnant women and families with children aged 0-5.

What are the MIECHV's goals?

- Improve maternal and child health,
- Prevent child abuse and neglect,
- Encourage positive parenting, and
- Promote child development and school readiness.

Why is MIECHV so meaningful?

MIECHV creates a VISION by engaging partners in a collaborative process to plan and implement policies, procedures, standards, measures and funding mechanisms that support common goals that benefit families and communities;

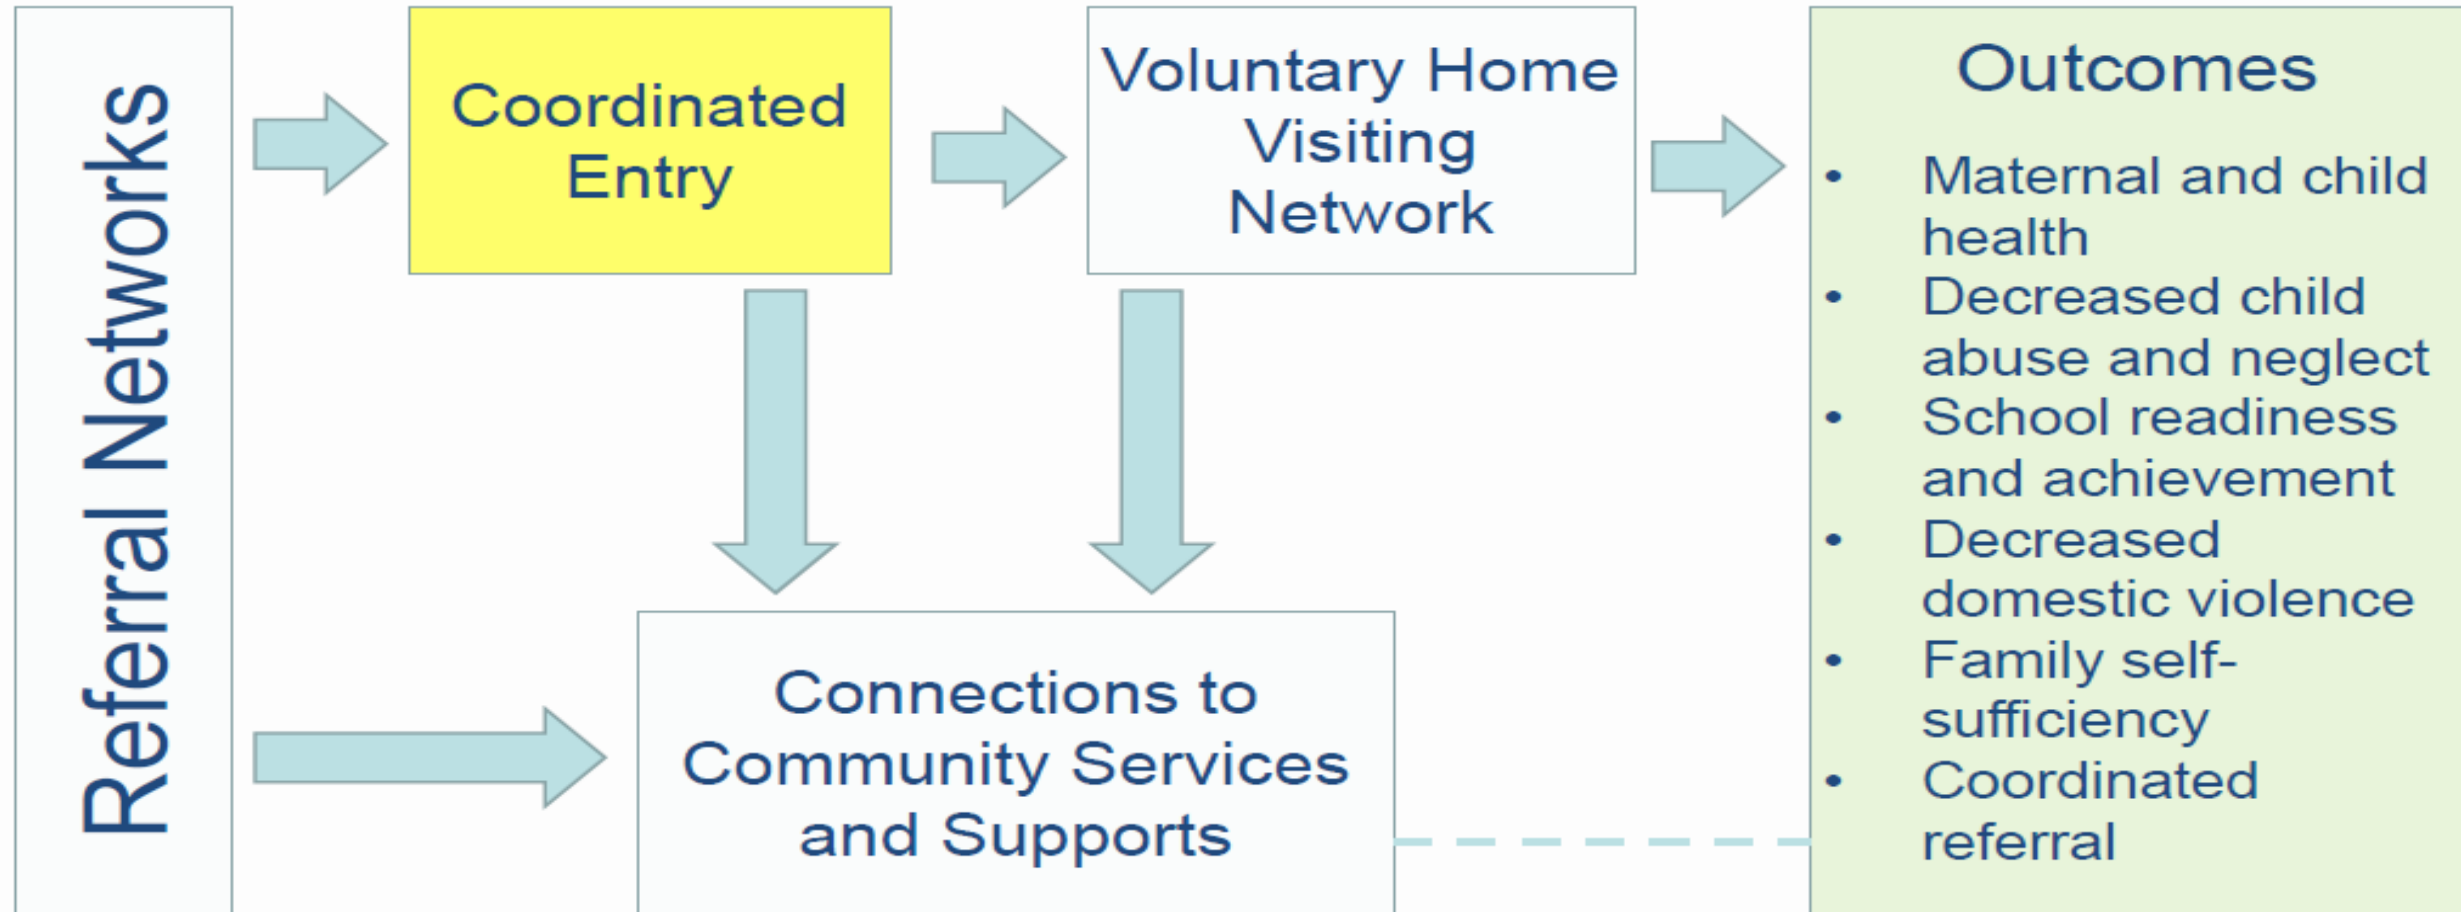

MIECHV strengthens the Home Visiting INFRASTRUCTURE by improving the quality of the system of care and supporting the use of evidence-based model programs;

MIECHV promotes POSITIVE OUTCOMES by measuring and reporting progress toward improving child health and safety, supporting healthy development, reducing family violence, improving maternal child health, and encouraging economic self-sufficiency.

MIECHV Home Visiting System

HEALTHY START & MIECHV

A history of shared goals

Advancing Health Equity

All families served by **MIECHV** & **Healthy Start** programs have fair and just opportunities to achieve the highest level of health and well-being.

A Shared Goal

MIECHV Home Visiting

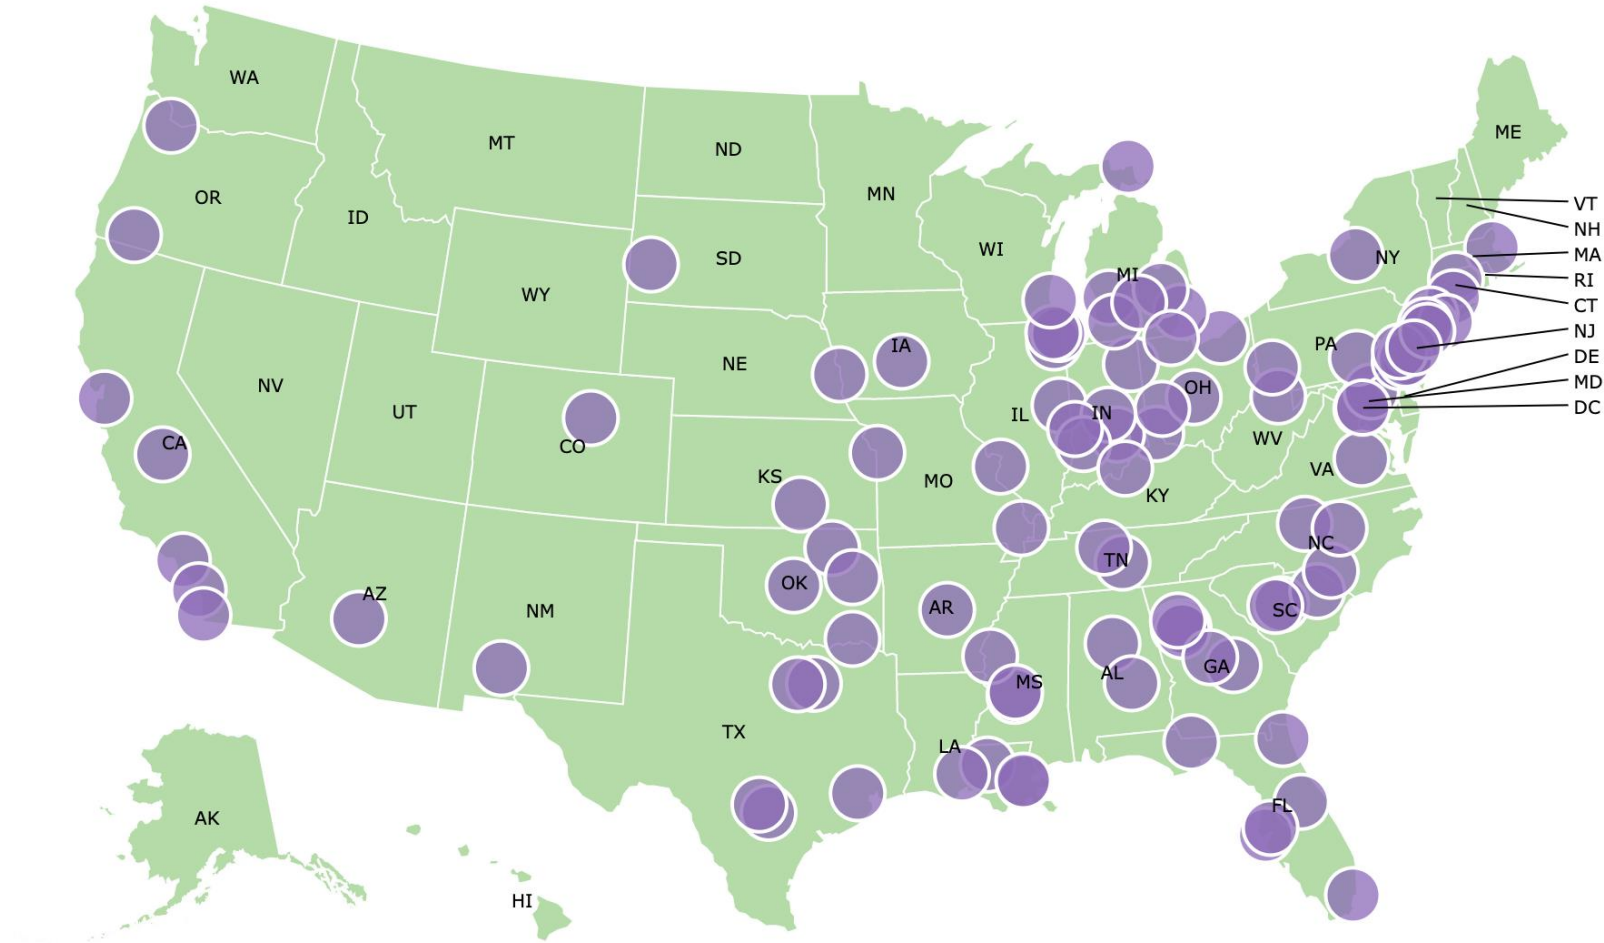

- **Improve:** maternal and child health
- **Prevent:** child abuse and neglect
- **Reduce:** crime and domestic violence
- **Increase:** family education level and earning potential
- **Promote:** children's development and readiness to participate in school
- **Connect:** families to needed community resources and supports

Healthy Start

- **Improve** health outcomes before, during, and after pregnancy
- **Reduce** racial and ethnic differences in rates of infant deaths and negative maternal health outcomes
- Local projects enroll women, infants, children (up to 18 months), and partners. They **tailor their services** to their local community's needs.

MIECHV Performance Benchmarks		Healthy Start
Percent of primary caregivers enrolled in home visiting who reported that during the recent 6 consecutive months who had continuous health insurance.	Health Insurance	75% of Healthy Start women and child participants with health insurance.
Percent of mothers enrolled in home visiting who received a postpartum visit 7-14 days after delivery who received a postpartum visit within 8 weeks (56 days) of delivery.	Postpartum Visit	75% of Healthy Start women participants who receive a postpartum visit.
Percent of infants enrolled in home visiting who are placed to sleep on their backs, without loose bedding and no bed sharing.	Safe Sleep	75% of Healthy Start participants who are placed to sleep on their backs, without loose bedding, place infant on their back on a firm sleep surface without loose bedding and no bed sharing).
Percent of infants (among mothers who were breastfeeding prenatally) who were breastfeeding or pumped at 6 months.	Breastfeeding	75% of Healthy Start participants that breastfeed or pumped at 6 months.
Percent of children enrolled in home visiting who receive recommended visit based on the American Academy of Pediatrics (AAP) schedule.	Well Child Visits	75% of Healthy Start participants who receive well child visits.
Percent of primary caregivers enrolled in home visiting who are screened for depression using a validated tool and, if screened positive for depression, receive a referral for follow-up services (for those not enrolled prenatally, or within 6 months of delivery (for those enrolled prenatally).	Depression Screening	The percent of Healthy Start women participants screened for clinical depression using a validated standardized tool and, if screened positive for depression, receive a referral for follow-up services.
Percent of primary caregivers enrolled in home visiting who are screened for intimate partner violence using a validated tool.	Intimate Partner Violence Screening	75% of Healthy Start women participants who receive intimate partner violence screening.
Percent of children enrolled in home visiting who reported that during a typical week, on average, a family member 3 or more times per week, on average, sang songs with their child daily, every day.	Early Language and Literacy	75% of Healthy Start participants age 6 through 23 who are read to by a family member 3 or more times per week, on average.

Connecting & Building a Partnership

NATION

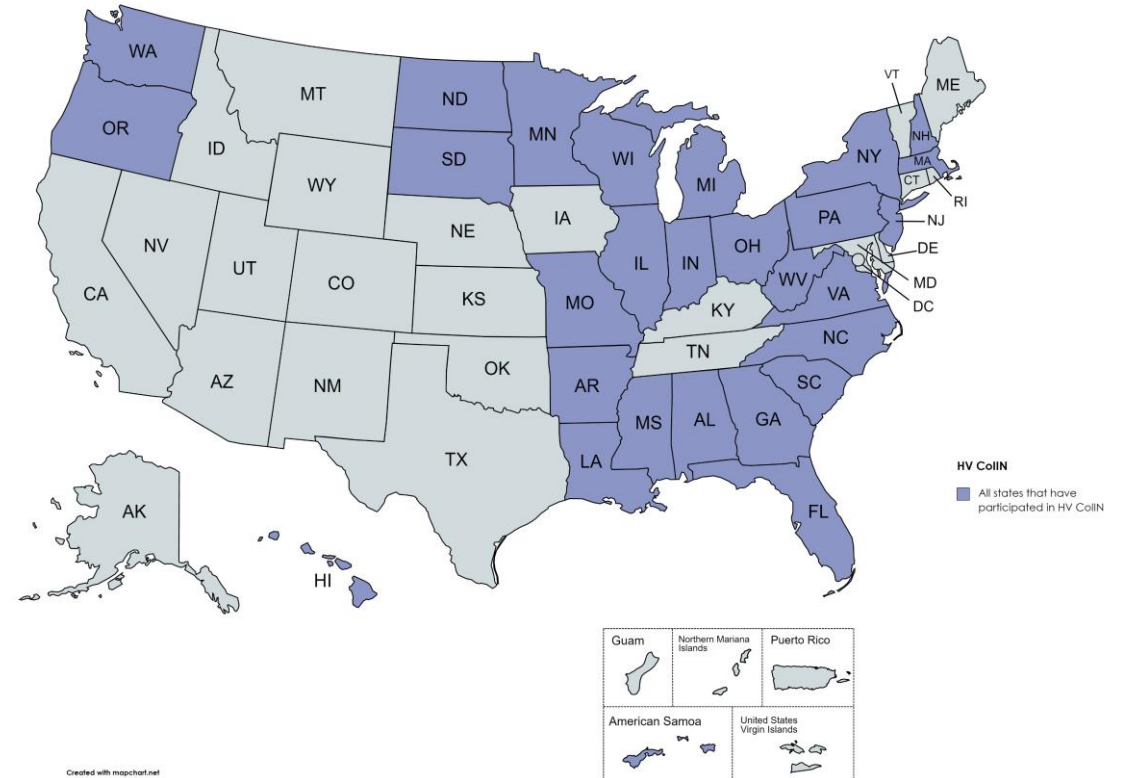

136
HOME VISITING
AGENCIES

*So far [in HV CoIN 2.0],
we have had 19 out of 23
mothers report symptom
improvement. We're so
excited about that, and
we really attribute a lot of
that to HV CoIN. . . It has
been a huge asset.*

—HV CoIN 2.0 State Awardee

Family Leadership: *A Belief at the Core of HV CoIN*

Every caregiver adds value when they have an equal opportunity to share and leverage their strengths and gifts toward change efforts.

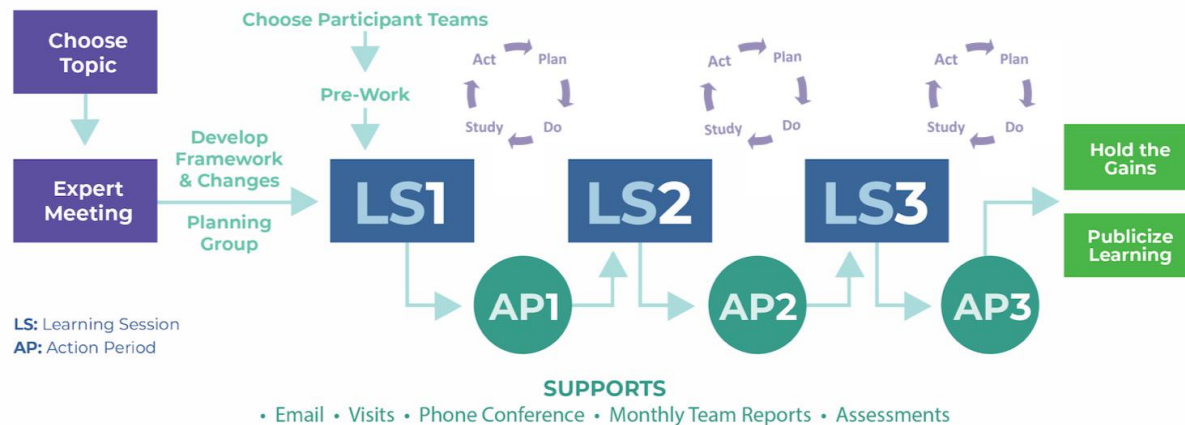

"I want to give back to my home visitor some of what she gives me. I am so glad to have an opportunity to help other moms through my experience."

— Parent Leader

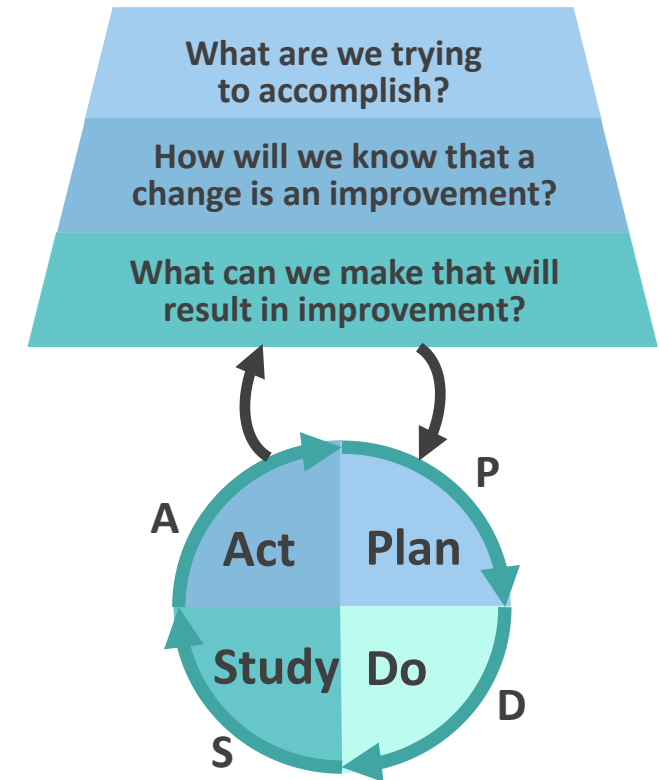

Our Framework for Helping You Achieve Breakthrough Improvement

The **HV CoIN team** will facilitate a traditional, time-limited learning activity using the *Breakthrough Series* framework:

Collaborative Learning Breakthrough Series

Local implementing agencies (LIAs) use the Model for Improvement to guide their work:

Experiencing Success

SRR Key Driver Diagram

Aim Statement

HV CoIIN participants will work to improve the professional well-being of home visitors and home visiting supervisors, including:

- Job and pay satisfaction,
- Psychological well-being,
- Self-efficacy and confidence, and
- Job meaning and fulfillment.

By April 2024, 85% of home visiting staff will report they always feel supported to manage their work and still be present for the families or staff they support.

Primary Driver 1. Hiring Practices

Primary Driver 2. Home visiting workforce supports

Primary Driver 3. Physical and psychological health, wellness, and balance of home visiting professionals

Primary Driver 4. Teamwork and communication

Median 40% to 62%

Support to manage work and be present with families & staff

"Having a leader that looks like me makes me feel more welcomed and prouder"

Hiring & Recruitment Data

(Note: 7 teams had submitted final survey as of 5.18.22)

- Improvement in all nine categories from pre to post survey
- Biggest improvements reported in the following areas (aggregate and in order of most improvement):
 - Shadowing or virtual home visitor experience
 - Home visitor involvement in interviewing
 - Home visitor involvement in candidate selection
 - Process in place to hire culturally competent staff

1. Hiring practices focus on home visiting skills and competencies
2. Hiring practices focus on equity, diversity, and inclusivity
3. Processes in place to hire qualified staff
4. Processes in place to hire diverse staff
5. Processes in place to hire culturally competent staff
6. Home visitor involvement in developing job descriptions
7. Home visitor involvement in interviewing
8. Home visitor involvement in candidate selection
9. Shadowing or virtual home visitor experience

PRESS PLAY!

Reflective Supervision

More to Celebrate!

Reflective Supervision!

I am part of a separate reflective group that does not include my supervisor - this time is EXTREMELY useful to me because I learn different tools from my peers.

Work Life Balance

Median 35% to 62%

Some Strategies Tested:

- Meditation incorporated into meetings
- Walking meetings
- Better calendaring/scheduling

Median 48% to 74%

Ongoing Support from Team

Time (days) between Home Visitor Staff Leaving

- 9 out of 10 teams had favorable trends (5+ months in a row steadily ascending.) low turnover rate!
- 5 of 10 teams experienced the positive outcome mid-way through the project!
- Median # days between staff leaving was 169.5 days!
 - 7 teams > 154 days between staff leaving
 - 2 teams >242 days between staff leaving

Juneau Adams went entire life of CoIIN with no home visiting staff leaving

Better Team Meetings!

- 100% of teams report incorporating learning into every team meeting!
- 100% of teams report spotlighting home visitor accomplishments at every team meeting!

Improvements to team meeting! We have started every team meeting with successes and wins- personally, professionally, and for the families we work with. We have also implemented an activity- either team building or mental health improvement- lead by team members weekly- Easterseals

SECTION 3

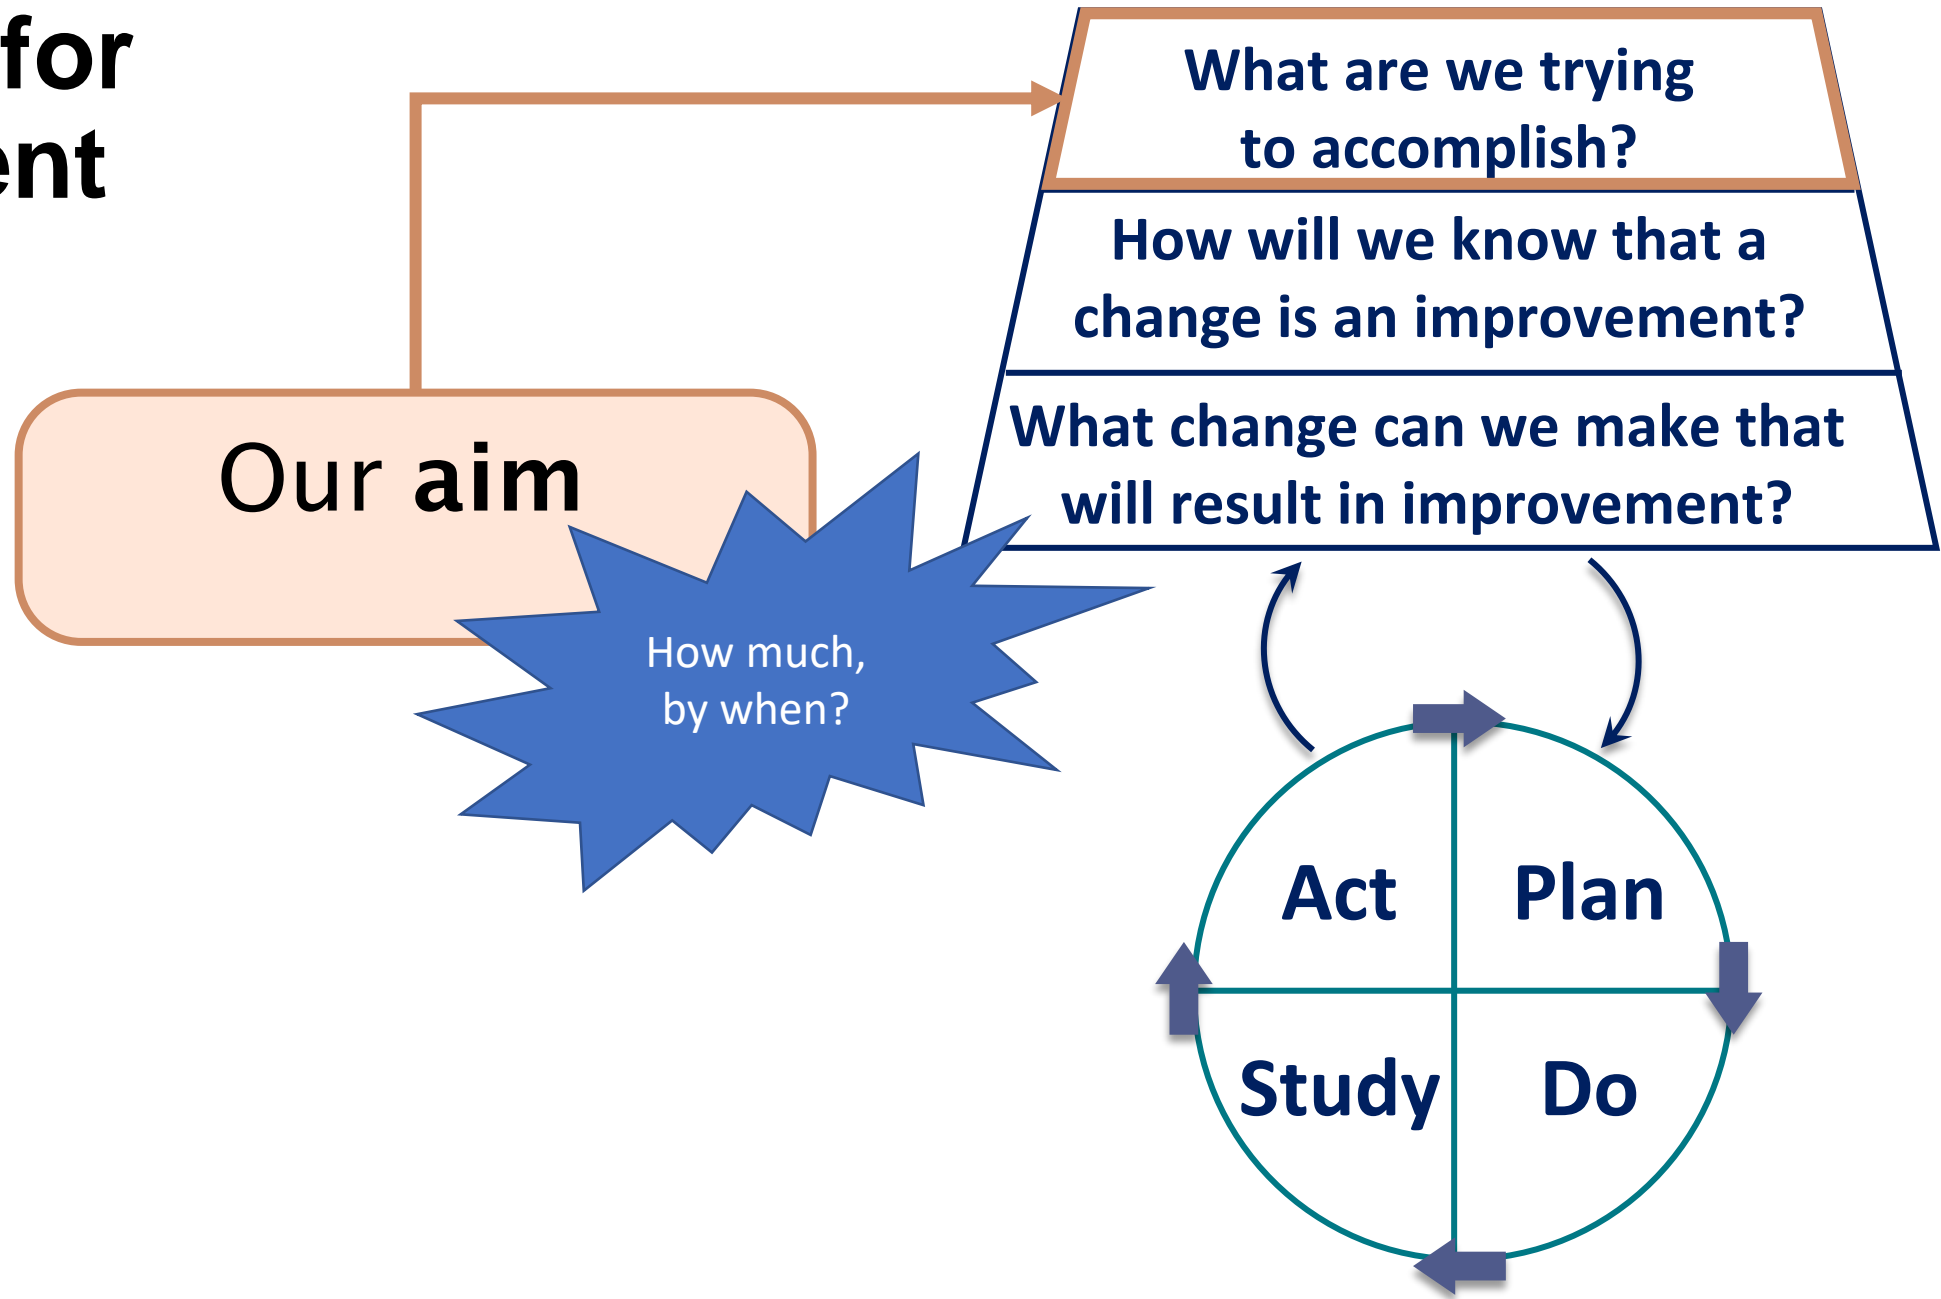

Building your skills

THE MODEL FOR IMPROVEMENT

Our Guide for making change

The Model for Improvement

Aim Statement

By April 2024, engage caregivers in HV CoIIN so that they can shape our improvement efforts:

- **At least 2 caregivers are included in our CQI team**
- **80% of team meetings have caregiver participation**
- **Caregivers report that their voices are heard**

The Model for Improvement

Measures or data

Measures should be:

- Directly tied to aim and key processes
- Collected regularly

The Model for Improvement

of caregivers on CQI team
% of team meetings where
a caregiver is present and
participates

The Model for Improvement

Changes or Ideas

Sources include:

- HV CollN change packages
- Lived experience of clients
- Teams' frontline knowledge
- Literature
- Model Guidelines
- QI tools (process maps)

What are we trying to accomplish?

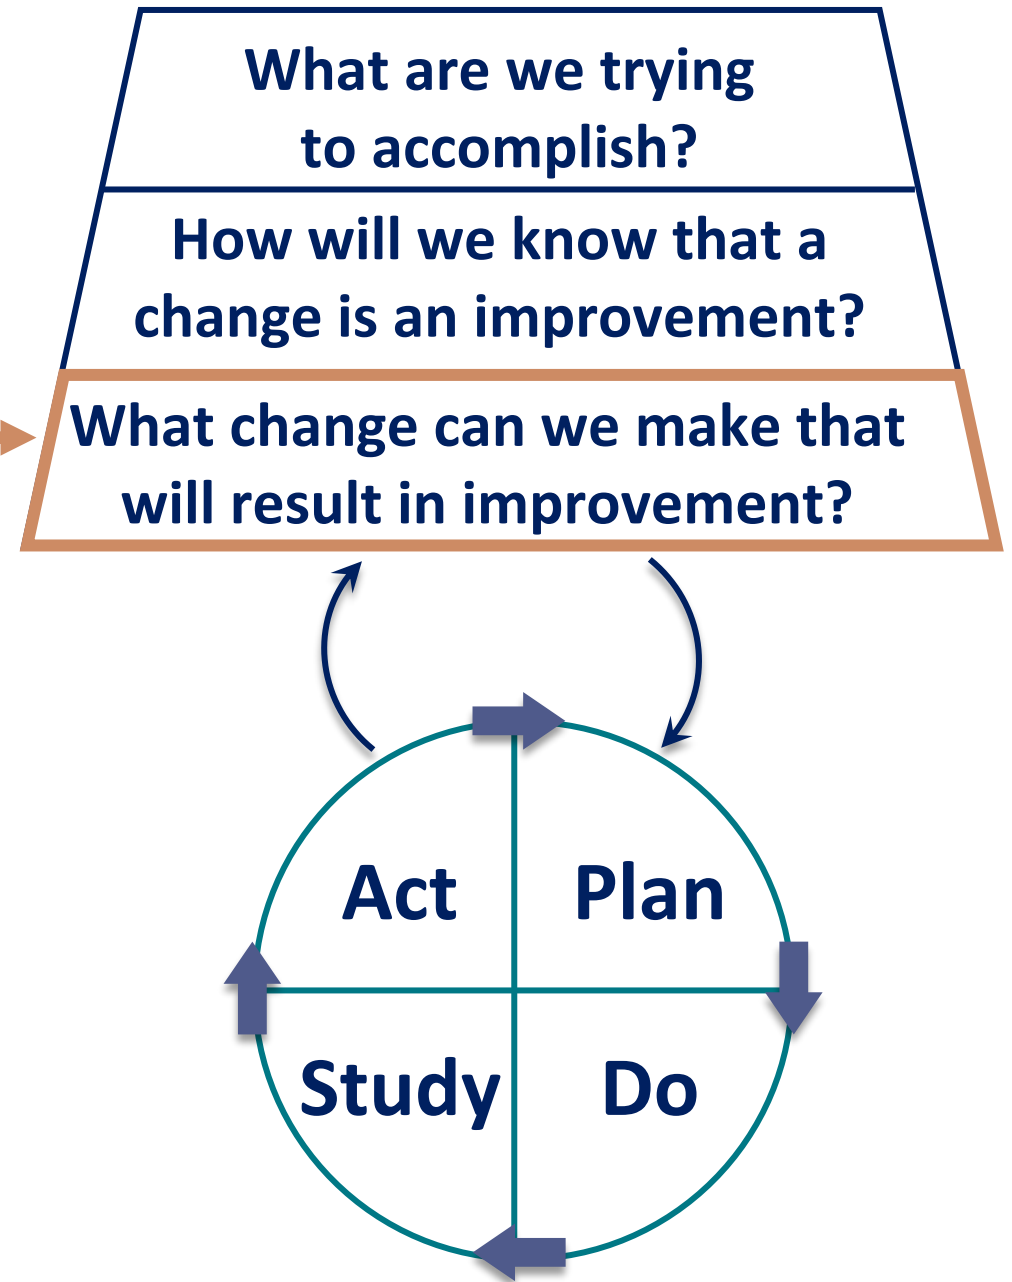

How will we know that a change is an improvement?

What change can we make that will result in improvement?

The Model for Improvement

- Adjust team meetings to times that are convenient to caregivers
- Have pre-meeting with caregivers

The Model for Improvement

Test the change using PDSA cycles; this is the **action** portion of the model

Learning Check

I have a lot of questions and need support to apply these concepts.

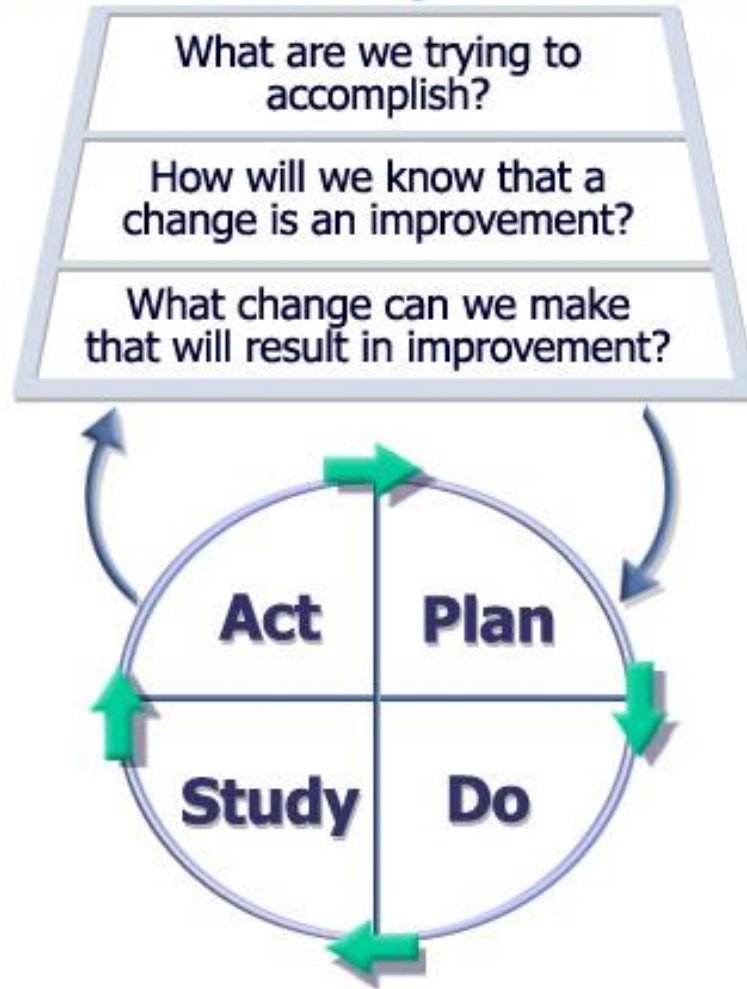

I have a few questions and may need some help applying the concepts.

I fully understand and can apply these concepts independently.

ROOT CAUSE ANALYSIS

Help your team clarify processes and
identify changes to test

Model for Improvement

Q: How do we identify changes to test to help us accomplish the aim?

A: Start by determining the root cause(s) of the problem!

Identifying and Analyzing Root Causes

Getting to the root of the problem

WHAT WE SEE ON
THE SURFACE

BELOW THE
SURFACE

Root Cause Analysis (RCA)

What is RCA?

- Team-based approach to identifying the underlying cause of an issue so that the most effective changes can be identified and tested

Why is RCA important in CQI?

- Saves your team valuable time and energy
- Enables you to visualize and prioritize different causes and related changes
- Supports strategic and data-informed decisions

5 Whys

5 Whys

- Helps to identify the root cause of a problem....not just the symptoms
- Ask “why” five times to get to the root cause
 1. Write down the specific problem
 2. Ask why the problem happens
 3. Write down the answer
 4. If answer is not write down the answer
 5. Repeat step 3 until all agree that you have identified the root cause the root cause of the problem in step 1, ask “why” again and

They brought in a pigeon expert.

He determined
that the birds
were there to
eat the
spiders.

Learning Check

I have a lot of questions and need support to apply these concepts.

I have a few questions and may need some help applying the concepts.

I fully understand and can apply these concepts independently.

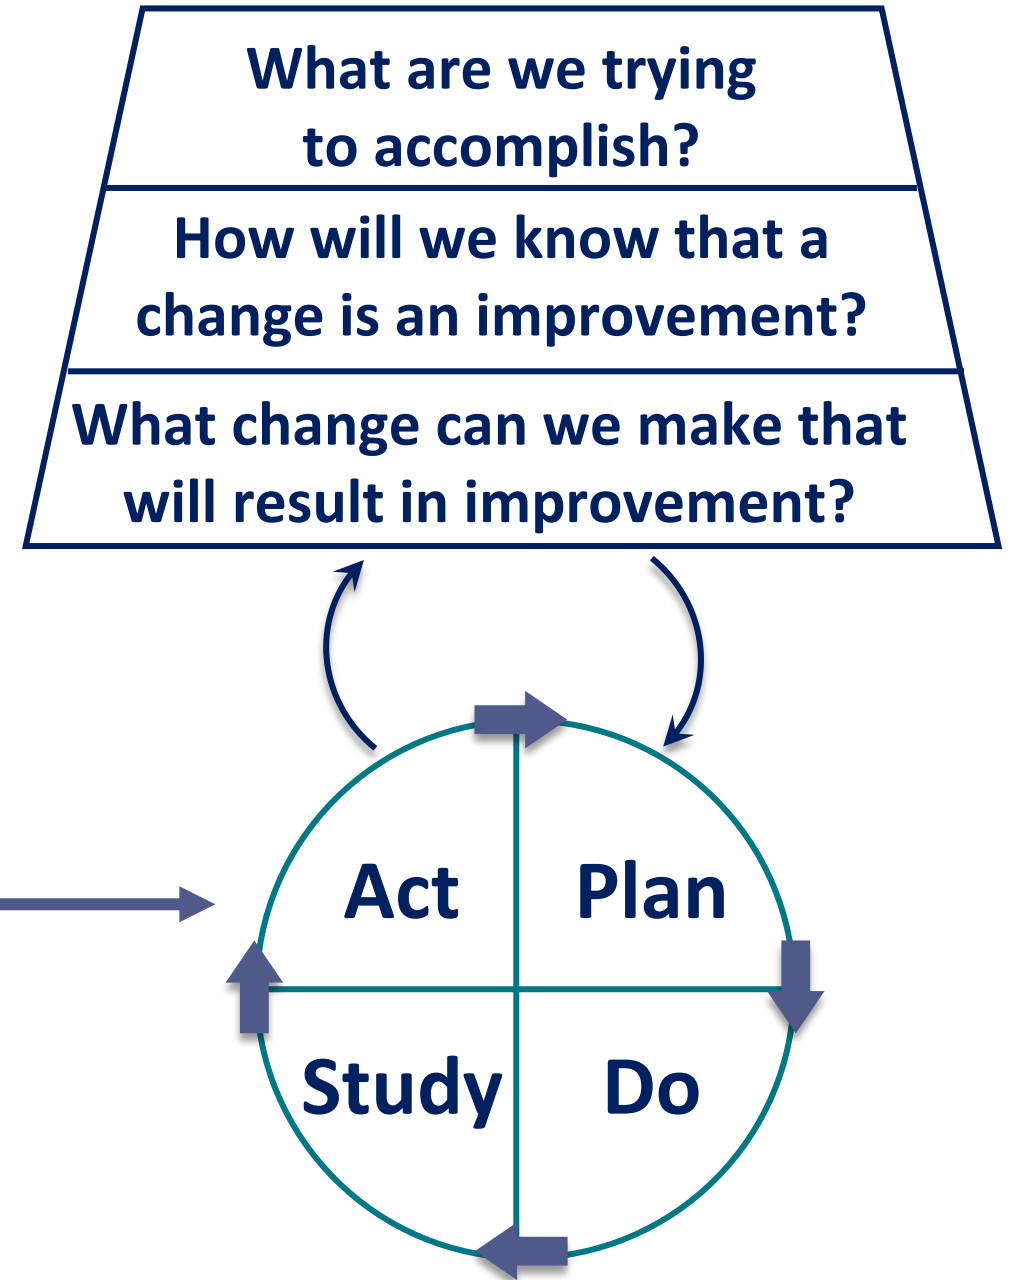

BREAK

PLAN-DO-STUDY-ACT CYCLES

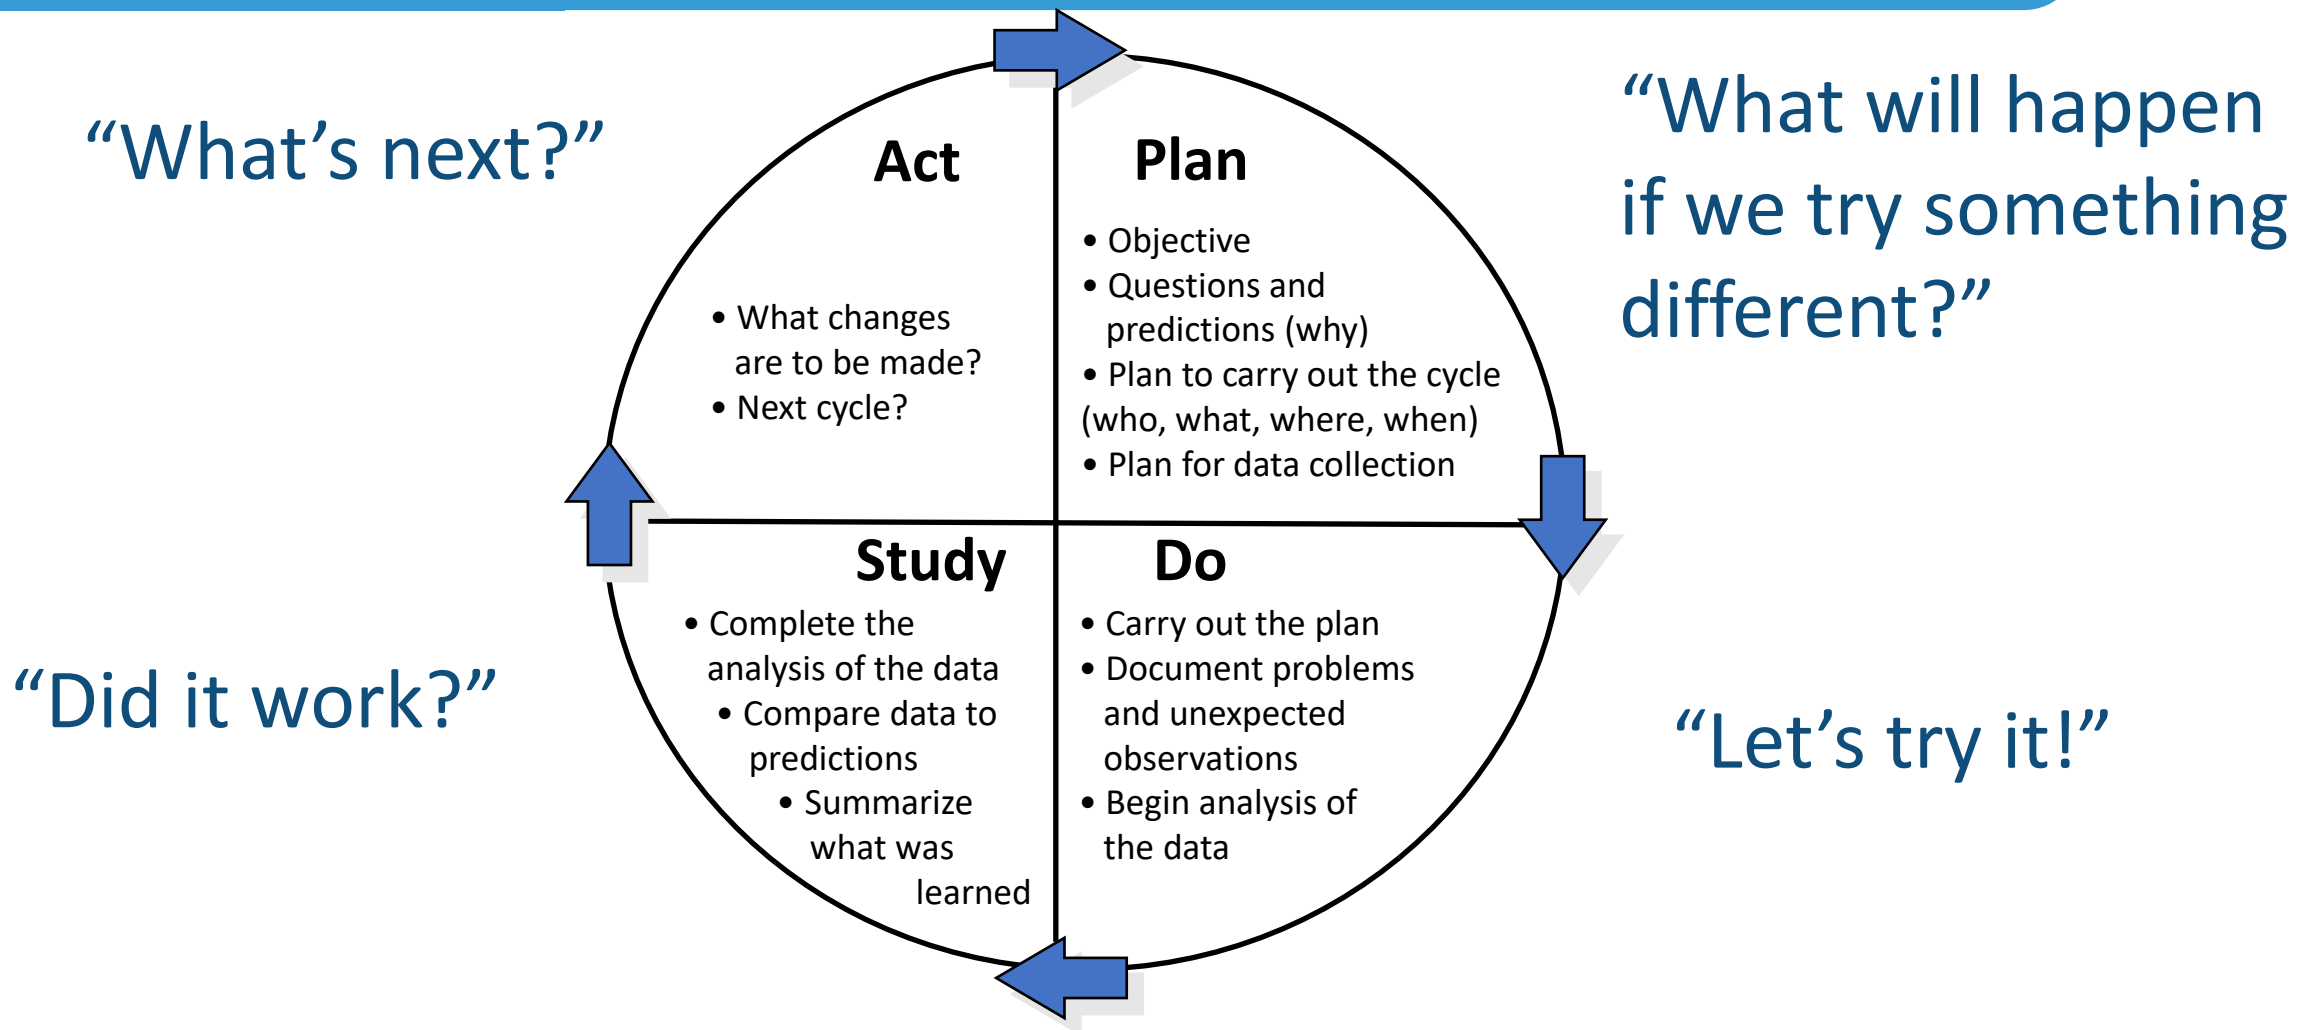

The engine of change

The Model for Improvement

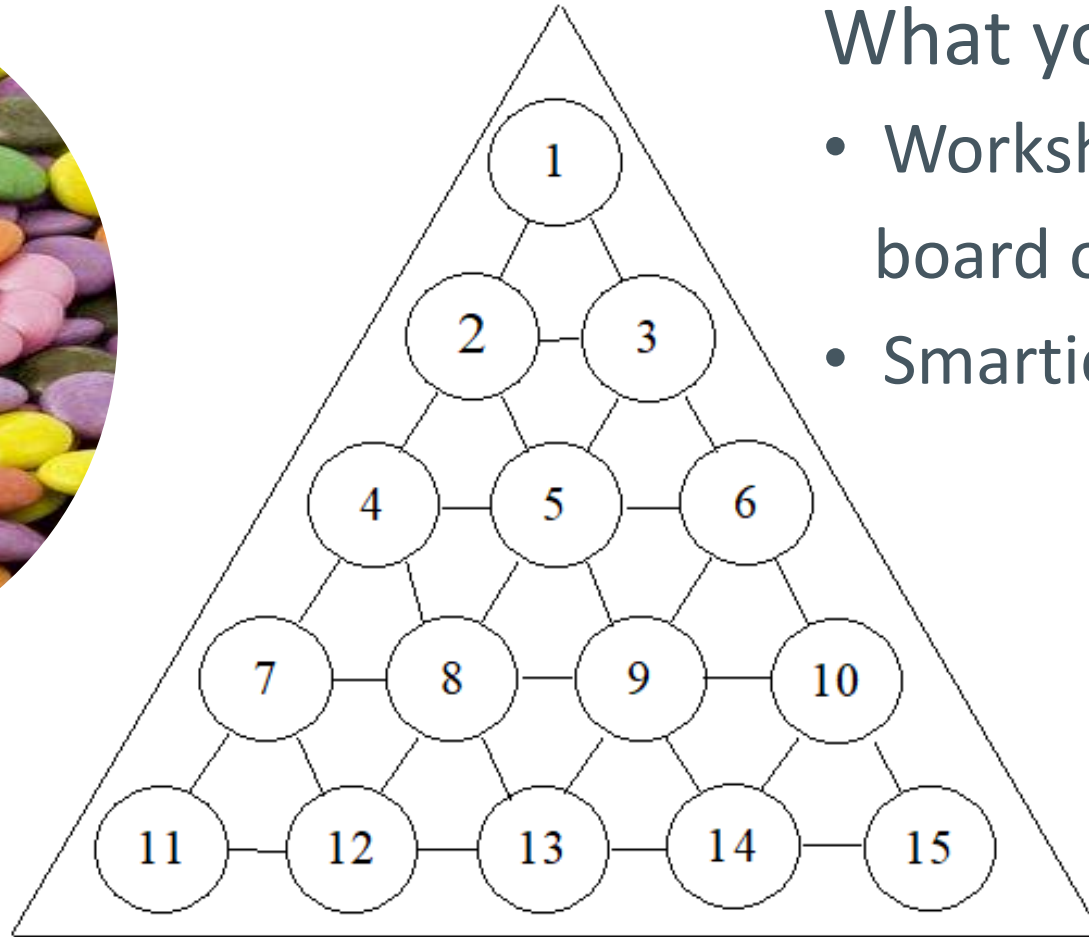

Test the change using PDSA cycles;
this is the **action** portion of
the model

The PDSA Cycle

The Peg Exercise

What you will need:

- Worksheet with this peg board on it
- Smarties

Instructions

- Consists of an exercise board of a “representative” equilateral triangle with 15 circles within the exercise field
- Each circle is consecutively numbered from one to 15.
- Smarties are placed on all but one position (any position can be left open - your choice!).
- The goal is to jump a single, adjacent marker along the path lines indicated and to remove the jumped Smartie.
- The exercise is over when no more Smarties can be jumped.
- The desired finishing point is only one Smartie remaining on the exercise board.
- Each participant should **note how many Smarties you had left on the exercise board at the end.**
- **WAIT UNTIL PROMPTED TO CLEAR YOUR BOARD AND START AGAIN!**

How it works....a quick tutorial...

Give it a try...

- Remember to stop after your first attempt (2-3 minutes to complete)
- Note how many markers you have remaining on your board

Collecting our data - Round #1

- 5 or more markers remaining
- 4 markers?
- 3 markers?
- 2 markers?
- 1 marker?

And the experts say...

Give it another try...

- Based on what we have learned from the “experts”
- Remember to stop after your next attempt
- Note how many markers you have remaining on your board

Data for round #2

- 5 or more markers remaining
- 4 markers?
- 3 markers?
- 2 markers?
- 1 marker?

PDSAs

- As a group, about how many PDSAs have we run?

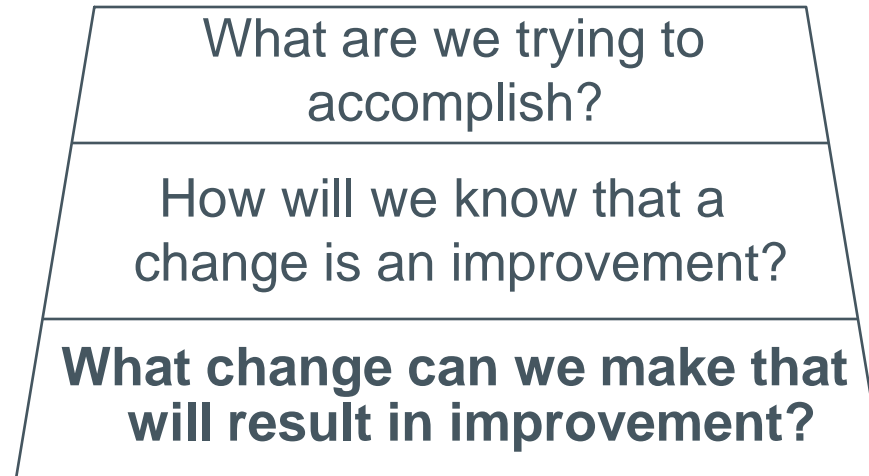

To Be Considered a PDSA Cycle:

- The test or observation was planned (including a plan for collecting data).
- The plan was attempted (do the plan).
- Time was set aside to analyze the data and study the results.
- Action was rationally based on what was learned.

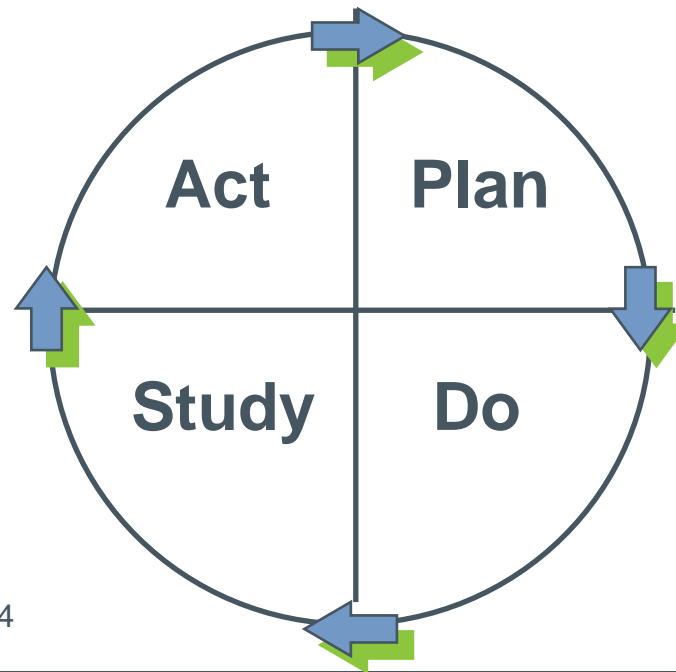

Model for Improvement

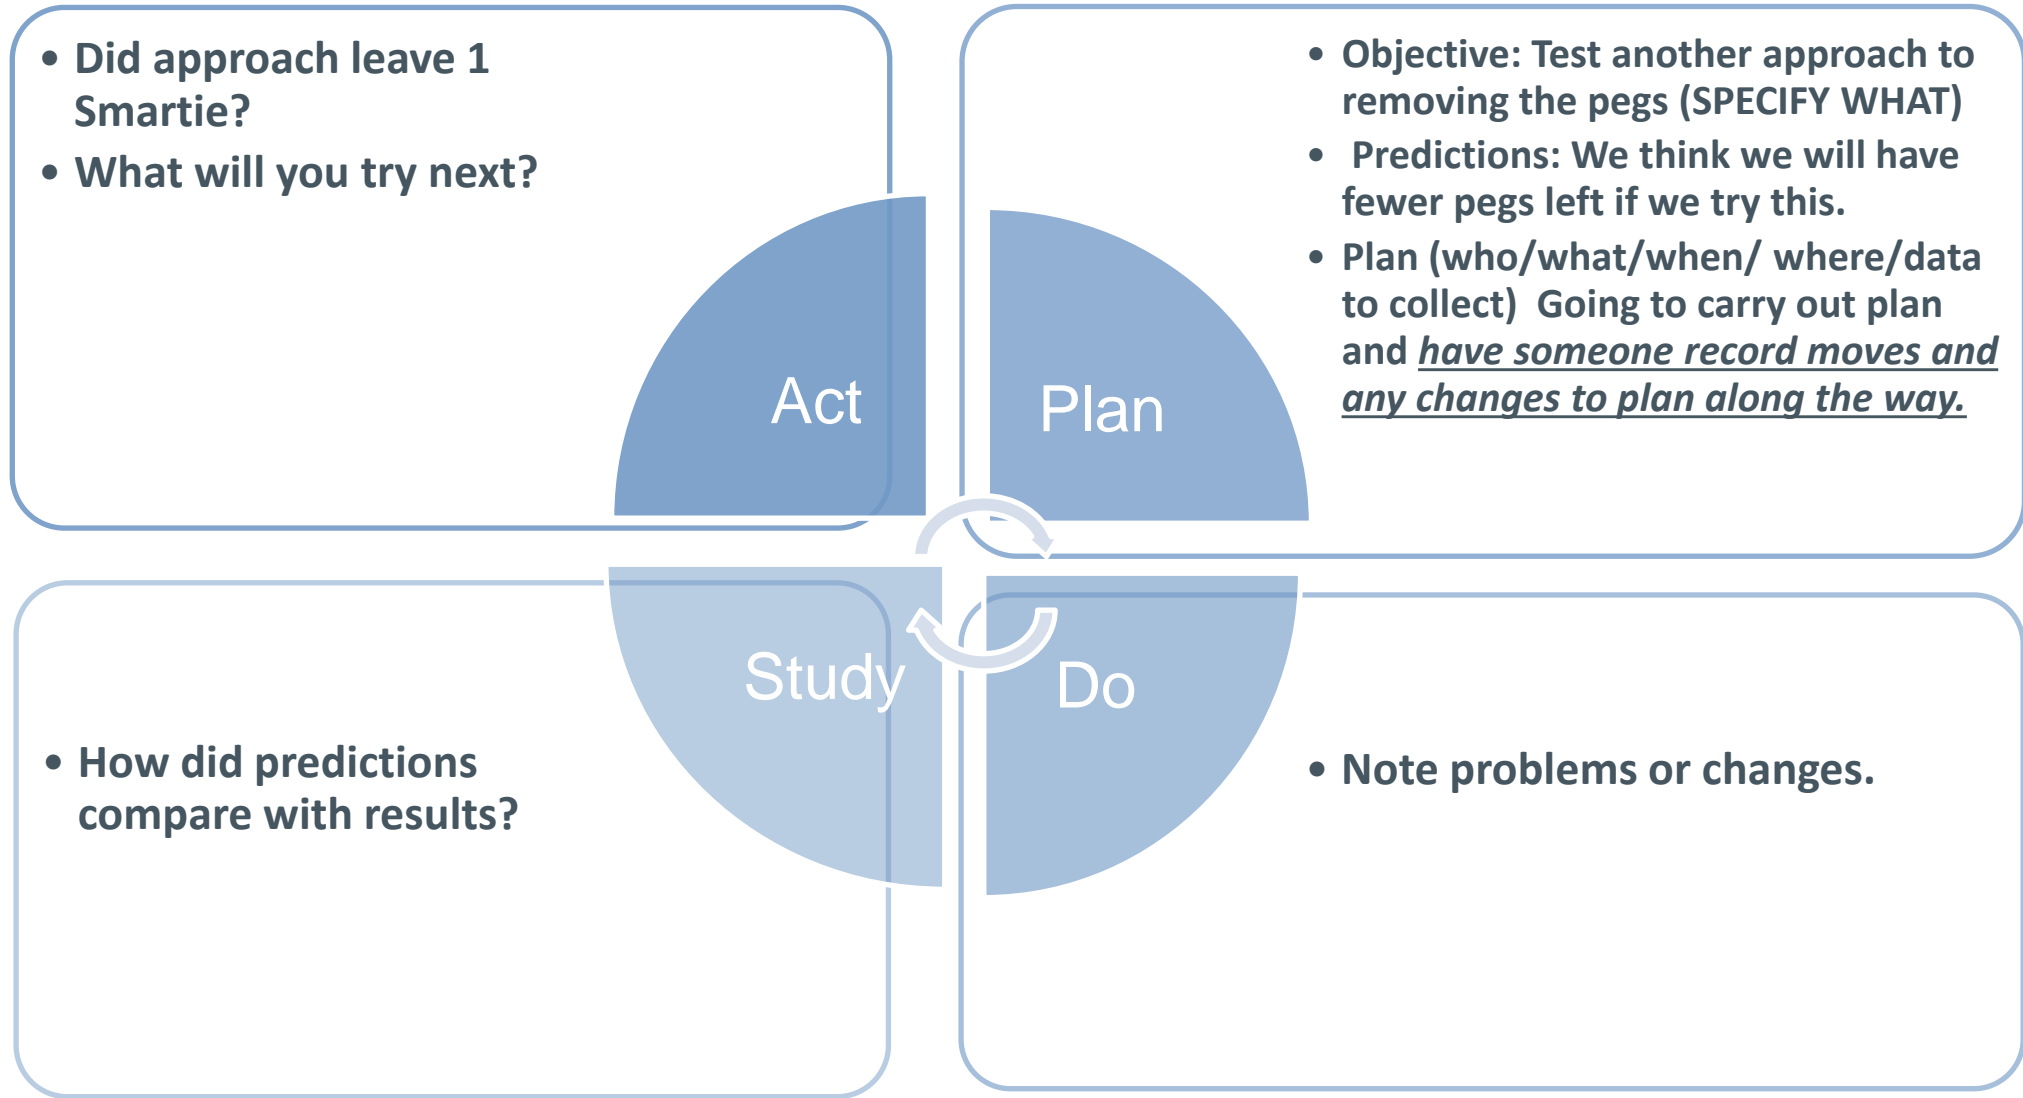

Leave as few Smarties as legally possible on game board

Our “score” will improve

- Start w/# xx empty
- Center-out
- Corner-in
- Keep ‘em bunched
- Random
- ??

PDSA Cycle for Peg Exercise

Give it another try...

- Using the PDSA cycle
 - Recording moves
 - Recording changes along the way
- Remember to stop after your next attempt
- Note how many Smarties you have remaining on your board

Data for round #3

- 5 or more markers remaining
- 4 markers?
- 3 markers?
- 2 markers?
- 1 marker?

And the experts now
say...

**What did you learn from
this simple activity?**

APPLYING OUR SKILLS

Staff Recruitment & Retention

SRR Key Driver Diagram

Aim Statement

HV CoIN participants will work to improve the professional well-being of home visitors and home visiting supervisors, including:

- Job and pay satisfaction,
- Psychological well-being,
- Self-efficacy and confidence, and
- Job meaning and fulfillment.

By April 2024, 85% of home visiting staff will report they always feel supported to manage their work and still be present for the families or staff they support.

Primary Driver 1. Hiring Practices

Primary Driver 2. Home visiting workforce supports

Primary Driver 3. Physical and psychological health, wellness, and balance of home visiting professionals

Primary Driver 4. Teamwork and communication

PD1: Hiring Practices

Secondary Drivers: the time when or places where a change can occur

When recruiting

When interviewing

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Create recruitment & outreach action plans to reach diverse community members, including former program participants
- ✓ Partner with nearby community colleges/universities to introduce home visiting field to students

Example PDSAs to Test

- Coordinate speaking engagements with local community college and university students who are interested in the social sciences.

- Prospective home visitors shadow current home visitors to get a better understanding of what it is like to be a home visitor.

PD1: Hiring Practices

Secondary Drivers: the time when or places where a change can occur

When recruiting

When interviewing

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Develop clear and accurate job descriptions that include home visiting competencies staff must bring to the job
- ✓ Use videos or live opportunities to shadow/experience a day in the life of a home visitor

Home Visiting Jobs: Stories from the field

PD1: Hiring Practices

Secondary Drivers: the time when or places where a change can occur

When recruiting

When interviewing

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Use diverse interview panels, including home visitors, to assess candidates and make hiring decisions
- ✓ Include interview questions and scoring criteria that explicitly ask about candidate experiences and values with equity, inclusion, and cultural competency

Change Tested: Integrate Health Equity-specific Questions to Interview Process

 Plan-Do-Study-Act Planning Form	
Agency: Pinellas	Primary Driver: 2
Cycle # (use a ramp planning form for multiple cycles):	Start Date: August 10 th End Date:
Questions	<p>What questions are you trying to answer with this PDSA cycle? If we...use standard interview questions related to equity</p> <p>It will result in...better assessment of candidates in regards to health equity knowledge, ability to put into practice</p>
Plan	<p>Plan for this Test</p> <ol style="list-style-type: none"> What: Equity related questions will be asked in interview Who: Linda, Noelle and Susan With whom: one parent educator candidate Start Date/End Date Where: Zoom Task or tools required to setup: Noelle to include equity related questions and assessment into interview rating form <p>Plan for Collection of Data:</p> <ol style="list-style-type: none"> What: # of clarifying questions regarding new interview questions. On a scale 1-5, how easy was it to rate the candidates answers On a scale 1-5, how helpful were the questions in assessing candidate's knowledge, skills and abilities in serving diverse populations Who: Noelle

Questions to integrate into the interview form:

- Please describe a situation in which you worked on a project with people who were from backgrounds other than your own. What was challenging for you in this work? What did you do to make your work together successful? (Listen to see if the candidate has reflected on the opportunities and challenges of creating inclusive workplace cultures.)
- How has your culture influenced your career goals?
- What opportunities have you participated in to increase your knowledge of racial equity, inclusion, or diversity? What did you learn, and how did you apply the learning?
- Tell us about a situation in which you were required to provide services to a diverse group of people.

53 • HEALTH EQUITY *in* HOME VISITING

Key Resource:
[Applying an Equity Lens to Recruiting, Interviewing, Hiring & Retaining Employees](#)

PD1: Hiring Practices

Secondary Drivers: the time when or places where a change can occur

When recruiting

When interviewing

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Develop onboarding process that extends through the majority of the first year of work

SRR Key Driver Diagram

Aim Statement

HV CoIN participants will work to improve the professional well-being of home visitors and home visiting supervisors, including:

- Job and pay satisfaction,
- Psychological well-being,
- Self-efficacy and confidence, and
- Job meaning and fulfillment.

By April 2024, 85% of home visiting staff will report they always feel supported to manage their work and still be present for the families or staff they support.

Primary Driver 1. Hiring Practices

Primary Driver 2. Home visiting workforce supports

Primary Driver 3. Physical and psychological health, wellness, and balance of home visiting professionals

Primary Driver 4. Teamwork and communication

PD3: Physical and psychological health, wellness, and balance of home visiting professionals

Change Ideas: The “What” That Needs to Be in Place

For or during home visits

When assessing and developing policies & procedures

For or during administrative time

Changes to Test

- ✓ Use mobile apps to check in/know home visitors' location in the field
- ✓ Provide support and communication for staff on setting clear boundaries and expectations with program participants (re: availability outside normal business hours)
- ✓ Offer discrete and non-threatening mechanism for staff to report events that may cause physical or psychological harm

Changes tested: Provide support and communication for staff on setting clear boundaries and expectations with program participants (re: availability outside normal business hours)

PDSA Cycle

Details

PDSA Cycle #: PD3.SD1.C2.Example 1. Contact Cards

Primary Driver 3: Physical and psychological health, wellness, and balance of home visiting professionals

Secondary Driver: For or during home visits

Change Idea: Provide support and communication for staff on setting clear boundaries and expectations with program participants (re: availability outside normal business hours)

Change Idea: Contact cards for families with available hours and contact methods

What changes can we make that will result in an improvement?

Prediction

If we... provide a contact card to families that includes how home visitors can be reached and when

It will result in... greater clarity for families around how to reach their home visitor and less pressure for home visitors to respond to calls and messages outside of their working hours.

Plan

What: Home visitor will share a contact card with their information filled in (name, phone number, email) and available hours. Card will include language about how family can get support outside of the home visitor's hours. This will include available support lines / services in the community, as well as a space for the family to identify their own support

PD3: Physical and psychological health, wellness, and balance of home visiting professionals

For or during home visits

When assessing and developing policies & procedures

For or during administrative time

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Write clear and transparent policies and communication around personal time off and flex time for hours worked outside of typical workday (e.g., family leave)
- ✓ Organizational assessment of cultural linguistic competence
- ✓ Create workplace policies or benefits that support physical and psychological well being and safety including during pandemics and other disasters

Changes tested: organizational assessment of cultural/linguistic competence

PDSA Cycle

Details

PDSA Cycle #: PD3.SD2.C2.Example 1. Cultural Competence in Reflective Supervision

Primary Driver 3: Physical and psychological health, wellness, and balance of home visiting professionals

Secondary Driver: When assessing and developing policies & procedures

Change Idea: Organizational assessment of cultural / linguistic competence

Change idea: Incorporate meaningful discussion about cultural competence as part of ongoing reflective supervision
What changes can we make that will result in an improvement?

Prediction

If we... incorporate meaningful discussion about cultural competence, such as personal experiences of bias and differences in values with other staff or families, into reflective sessions

It will result in... a better understanding of individual and team professional development needs and lead to concrete next steps for staff and our program

Plan

What: One supervisor will use next week's reflective sessions with three home visitors to explore cultural competence. Reflective prompts may include hearing from the home visitors about how they relate to families whose backgrounds

Ten Things You Should Do To Promote Cultural Competence¹

1. Make a commitment to expand knowledge about culture, cultural competence and the various dimensions of culture in your organization.
2. Make a commitment to develop an understanding of the various cultural groups within communities served by your agency.
3. Include culture and cultural competence principles in the strategic planning, policy development, program design, and service delivery process. Increase the organizational and individual understanding of how the various dimensions of culture impact the families the agency serves and the staff that works with them.
4. Be committed to promoting cultural competence. Develop this commitment through staff development and training, hiring, retention, career advancement, performance evaluations, and employee policies that support culturally competent and linguistically appropriate practice.
5. Create a safe, secure, and supportive environment where staff can explore and develop an understanding for all cultures. Create formal partnerships with community organizations and encourage staff to actively engage communities and families in the development of policy, program design, and service delivery models.
6. Be active in local communities. Engage communities by recruiting local citizens for the Board of Directors, in voting positions, and on advisory teams and task forces.

PD3: Physical and psychological health, wellness, and balance of home visiting professionals

Change Ideas: The “What” That Needs to Be in Place

For or during home visits

When assessing and developing policies & procedures

For or during administrative time

Changes to Test

- ✓ Provide access to routine infant early childhood mental health consultation and Employee Assistance Program
- ✓ Incorporate culturally relevant staff wellness and mindfulness techniques into team meetings, daily routines, and workflow
- ✓ Incorporate process for engaging in supportive and courageous conversations around racism, oppression & equity

SRR Key Driver Diagram

Aim Statement

HV CoIN participants will work to improve the professional well-being of home visitors and home visiting supervisors, including:

- Job and pay satisfaction,
- Psychological well-being,
- Self-efficacy and confidence, and
- Job meaning and fulfillment.

By April 2024, 85% of home visiting staff will report they always feel supported to manage their work and still be present for the families or staff they support.

Primary Driver 1. Hiring Practices

Primary Driver 2. Home visiting workforce supports

Primary Driver 3. Physical and psychological health, wellness, and balance of home visiting professionals

Primary Driver 4. Teamwork and communication

PD4: Teamwork and Communication

Recognition and celebration

When developing plans for career path advancement

During staff meetings

Developing relationships and shared decision making between leadership and staff

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Develop formal and informal recognition processes that incorporate individual preferences for forms of recognition
- ✓ Use huddles, debriefs, and team activities to reflect on and celebrate team successes

PD4: Teamwork and Communication

Recognition and celebration

When developing plans for career path advancement

During staff meetings

Developing relationships and shared decision making between leadership and staff

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Develop task force with home visiting program staff and relevant organization and awardee leadership to build buy in and engage in strategic planning on incentives, career pathways and living wage
- ✓ Partner with agency and awardee leadership to build buy in, develop, and implement plan for home visiting career pathways
- ✓ Develop Lead and Senior home visitor positions for those who stay on the job
- ✓ Partner with agency and awardee leadership to build buy in, develop and implement plan to conduct internal/state/regional audit to assess and respond to pay inequities

PD4: Teamwork and Communication

Recognition and celebration

When developing plans for career path advancement

During staff meetings

Developing relationships and shared decision making between leadership and staff

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Incorporate teambuilding activities to build trust and familiarity between co-workers
- ✓ Use strength-finder and/or leadership style resources to identify individual and collective strengths, particularly at times of change
- ✓ Use regularly scheduled staff social events or shared meals to promote team building

PD4: Teamwork and Communication

Recognition and celebration

When developing plans for career path advancement

During staff meetings

Developing relationships and shared decision making between leadership and staff

Change Ideas: The “What” That Needs to Be in Place

Changes to Test

- ✓ Train leadership staff in participative management, team building, and consensus decision-making
- ✓ Leaders intentionally spend time connecting to the work of the home visiting program (e.g., attending parent group, shadowing HV)

Changes tested: Train leadership staff in participative management, team building, and consensus decision-making

PDSA Cycle

Details

PDSA Cycle #: PD4.SD4.C1.Example 1. Collaborative Agenda Setting

Primary Driver 4: Teamwork and Communication

Secondary Driver: Developing relationships and shared decision making between leadership and staff

Change Idea: Train leadership staff in participative management, team building, and consensus decision-making

Change to test in PDSA ramp: Collaborative agenda setting

What changes can we make that will result in an improvement?

Prediction

If we... Invite all staff to contribute agenda items and ideas to our team meeting agendas

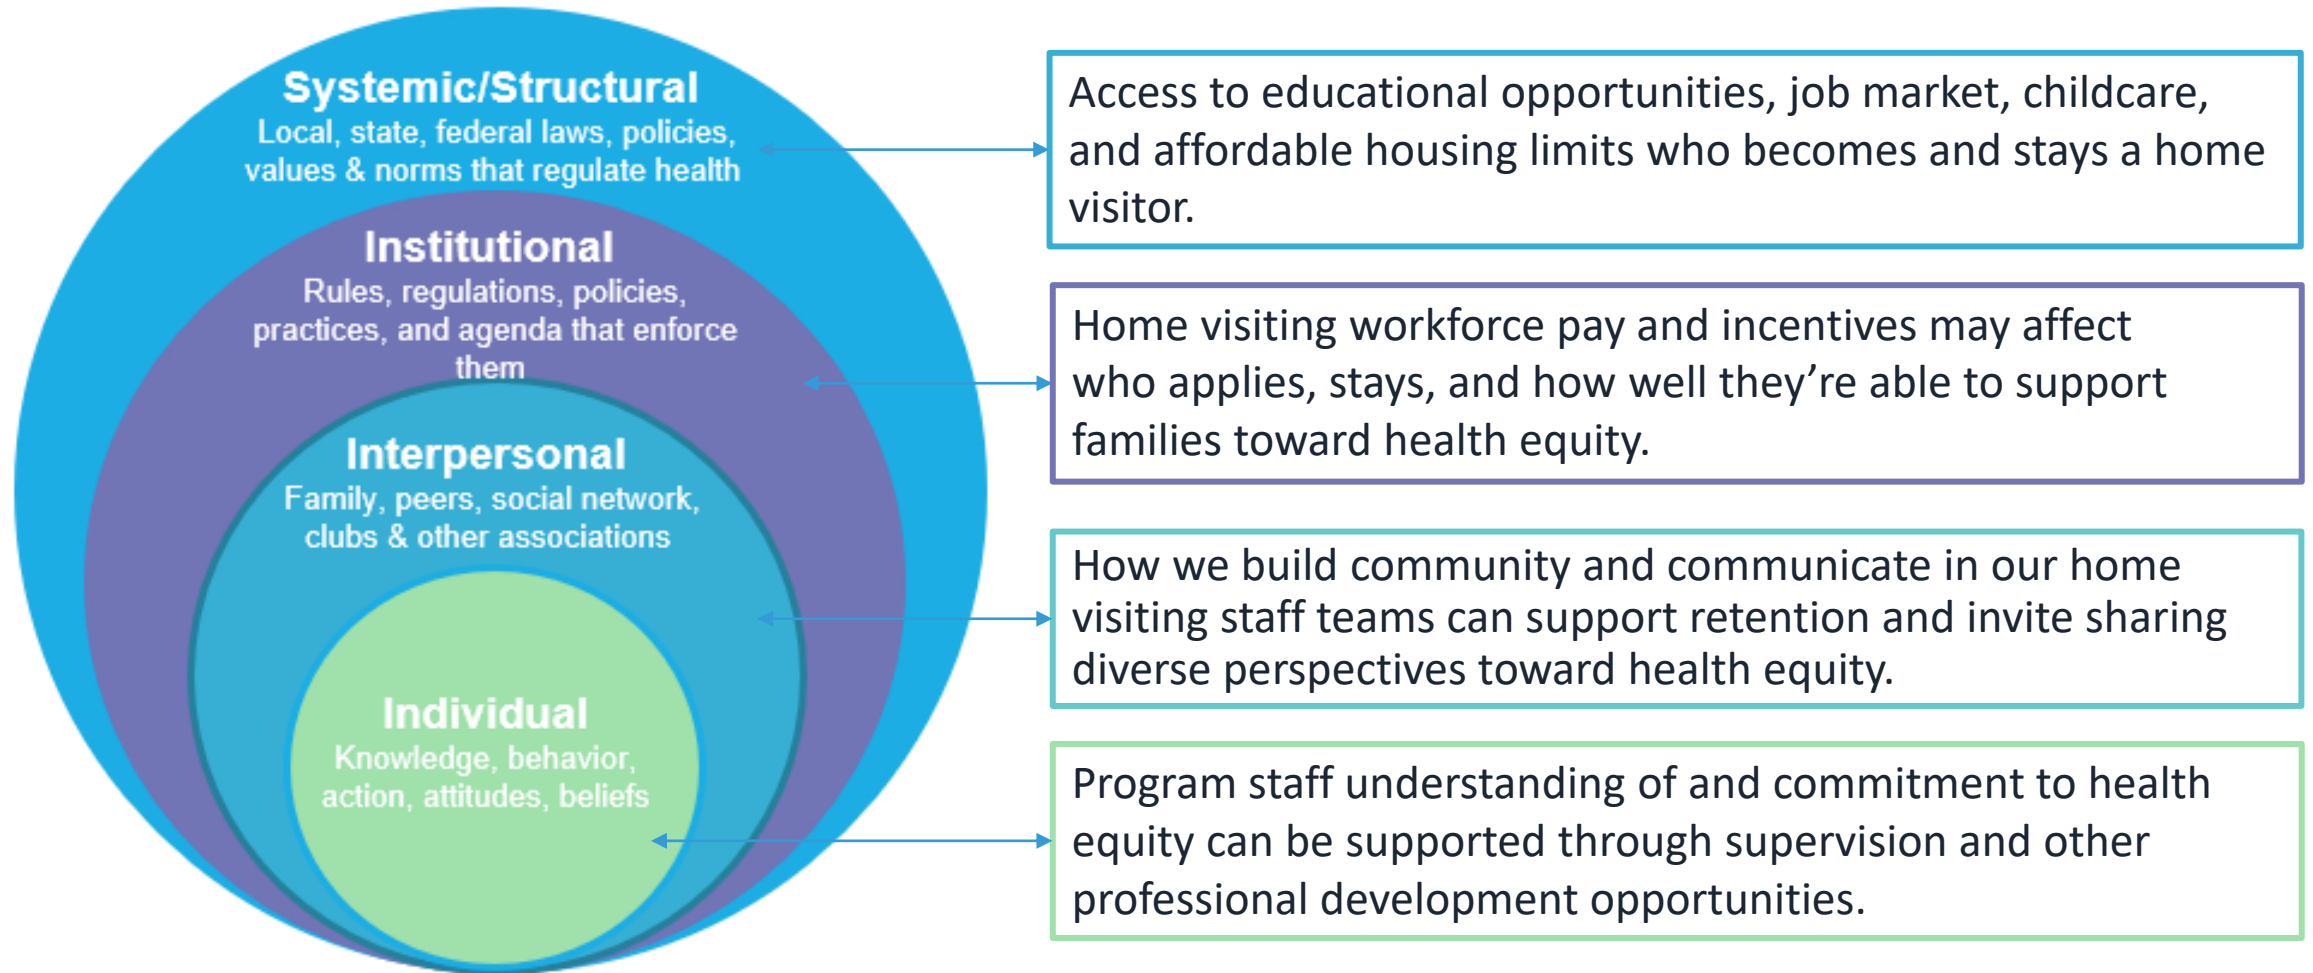

It will result in... home visitors feeling they have more power over how our team time is spent. We also predict this will improve staff assessments of our team meetings through higher ratings of how useful the meeting was to their work and how satisfied they were with the meeting.

Plan

What: Keep a team meeting agenda template on the shared drive and invite all staff to contribute agenda items as well as note particular questions or talking points they would like addressed

What idea are you testing in this PDSA cycle? (script to introduce depression screening)

Transforming Systems

PDSA Worksheet (short version)

1: Define your aim, the overall goal you wish to achieve. 2. Plan the first (or next) test of change toward achieving the aim. 3. Do the test; 4. record and study the results. 5. Act to modify the plan for your next test.

Aim:

Plan

Describe your first (or next) test of change:

Who is responsible:	When is it to be done:	Where is it to be done:
<div></div>	<div></div>	<div></div>

List the tasks needed to set up this test:	Who:	When:	Where:
<div></div>	<div></div>	<div></div>	<div></div>

Predict what will happen when the test is performed:	List measures for assessing the predictions:
<div></div>	<div></div>
